

Kimberly Reynders

Database Specialist

lreynders@dpsfoundation.org

(720) 423-3765

Kimberly Reynders joined the Denver Public Schools Foundation in June 2015 as the Database Specialist. As the manager of our donor database, she ensures accurate data, executes reports and generates lists for mailings. More importantly, she makes sure that our donors are recognized and properly thanked for their generosity.

Kimberly previously worked in development departments at the Denver Scholarship Foundation and Regis Jesuit High School. She is the proud mother of two young adults – both Eagle Scouts – one graduating from CU Boulder with a psychology degree and the other graduating from CU Boulder with a Computer Science Engineering degree.

I'm Kimberly, I'm from Aurora, Colorado and I play for Team DPS because I believe every child should be given the best opportunities to succeed in life.
